

Issue 1 | August 25, 2013

Volunteer to be an Engineering Student Host at New Student Orientation (NSO)

Are you energetic and outgoing? If you are, we need you to be a Student Host to welcome the 2013 incoming class at New Student Orientation on Wednesday, August 28. Here's what's in it for you: a free Top Dog lunch and Berkeley Engineering polo shirt, plus you'll meet new people, share your insight as a current student, gain leadership experience and have fun!

Sign up to volunteer by emailing Dawn Kramer at dkramer@berkeley.edu.

Time commitment (must be able to attend both):

- 1-hour training on Tuesday, August 27, from 3:30pm-4:30pm (grab and go boxed dinner provided!)

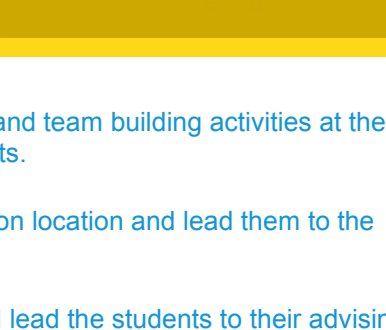

- New Student Orientation on Wednesday, August 28, from 9:00am - 2:30pm

Student Host duties:

- Help facilitate fun, active and lively icebreaker and team building activities at the RSF for 900+ incoming freshmen and transfer students.

- Help divide the new students by advising session location and lead them to the Memorial Glade for lunch hosted by Top Dog.

- After lunch, bring your group back together and lead the students to their advising session. Hang out for the 1-hour advising session and at 2pm help provide directions to department meeting locations from your advising session location.

NSO

Over 900 students are expected for this year's new student orientation. For many, this will be their first college experience.

Reminder: Host a table at NSO

You are invited to host an information table at New Student Orientation on Wednesday, August 28 from 11am-1pm on the Memorial Glade! Please register by filling out [this form](#). Each group will be provided with the following:

- One 6-foot table with a plastic table cloth and 4 chairs
- Enough space to setup demonstrations or display your group projects/cars/etc.
- Tickets for group hosts for a lunch catered by Top Dog!

Beginning at 11am the College will need your help with a quick "Thank You!" video (don't worry, it's a group thing) to thank alumni donors for all they do for the College. Arrive at 11am (the new students arrive as early as 11:30), help us thank our donors, set up your info table and get ready to meet 900 new students! See you there!

Opportunity: Work at Oracle Open World 2013 Conference

There are 30 positions open for temporary computer lab assistant for the Oracle Open World 2013 conference held in Moscone Center, San Francisco. This is a fantastic opportunity to get experience, get paid, and network at a huge industry conference.

The event is from Monday 9/23 to Thursday 9/26 for 6 to 8 hours per day. Sessions end at 6pm. Payment will be \$14 per hour. The requirement is for the students to be proficient with computer operations, such as loading materials on computers to get training sessions ready, etc.

If you are interested or would like more information, email Mike Cheng at mkc2002@gmail.com by 9/15. Mike is a Cal Alumnus who is highly involved with UCB undergrads.

ESC ITEMS

Points of Contact

Every year, the ESC assembles a list of the main points of contact for each engineering organization. This list is published on the ESC website to help foster connection among student groups. Please fill out [this form](#) with your 2013-2014 new officers. *The old officer core will continue to be ESC's main point of contact until the new officers are listed.*

The following clubs have already completed this form: ChemE Car, SWE, oSTEM, AIAA, BMES, ISPE, BEAM, BI, SES, HKN, and TBP.

Newsletter Submission

To submit a story or article to the ESC newsletter, please fill out [this form](#).

Submissions which do not follow the guidelines listed may not be included in the newsletter. Questions can be referred to bwindors22@gmail.com.

Keycard Access to COE Rooms

ESC has initiated a keycard access system to allow clubs access to 120AB Bechtel and the Bridges lounge. If you would like to give you officers access, fill out [this form](#).

Questions or comments? Email us at esc.berkeley@gmail.com.

To remove your name from the mailing list, email bwindors22@gmail.com.
